---

**WHEREAS**, in the 1960's and 1970's, the City of Branson, Missouri ("City") adopted the Zoning Ordinance, now existing in Chapter 94, referred to as the Unified Development Code and Utilities Code to promote health, safety, morals and a general welfare of the community, including its aesthetic appearance; lessen congestion in the streets; secure safety from fires, panic and other dangers; provide adequate light and air; prevent the overcrowding of land; avoid undue concentration of population; bring about the gradual conformity of the uses of land and buildings throughout the City; facilitate the adequate provision of transportation, water, sewage, schools, parks and other public requirements; protect and conserve the value of land throughout the City; and provide a policy to efficiently process permits and other applications by the City; and

**WHEREAS**, the Board of Aldermen of the City is considering amendments to the City Code regarding the regulation of the development of multi-family housing in the Entertainment District; and

**WHEREAS**, careful and prudent analysis of the City's Code, State regulations, the impact of development of multi-family housing in the Entertainment District may have on the health, safety, and general welfare of the City's citizens, and other pertinent information is required by the Board of Aldermen to reach an informed decision as to the propriety of such changes to the City's Code and to successfully draft an ordinance that amends the City Code as to properly promote the health, safety, and general welfare of the City's citizens if such ordinance is found to be necessary subsequent to the Board of Aldermen's analysis; and

**WHEREAS**, the Board of Aldermen has determined that before further development and use of multi-family housing are allowed to occur in the City in the Entertainment District, it is necessary that the Board of Aldermen further examine zoning issues to more properly plan, approve, regulate and control uses of multi-family housing property within the City in the Entertainment District; and

**WHEREAS**, comprehensively designed development requires the Board of Aldermen to examine further the construction and operation of the uses of property within the City and the development of utility and zoning regulations; and

**WHEREAS**, a ninety (90) day administrative delay is necessary to give the Board of Aldermen time to examine the issues, benefits, and consequences of regulation of the use of land within the Entertainment District of the City and for regulation of the use of land within the City, and to

develop and pass any needed utility, zoning, and development ordinances related thereto, with the caveat that if more time is needed, said administrative delay may need to be further extended.
