Community Plan 2030: TR-1: Road Network

FACTS:

The Municipal Electric Services Agreement formalizes the purchase of electricity from The Empire District Electric Company, d/b/a Liberty for the city's municipal needs. The Agreement not only addresses Branson's use of power at municipal facilities but more importantly, establishes the process for street lighting. The Agreement indicates that Liberty will install, own, operate and maintain the streetlights and establishes the rates for the various lighting fixtures.

During the April 22, 2025 Board of Aldermen meeting, Ordinance No. 2025-0020, approving the MESA Agreement was approved by the Board and executed by the Mayor. After the meeting, it was discovered additional changes were needed regarding the Agreement.

The MESA Agreement has now been revised, and all terms have been agreed upon by Liberty and the City. This item will formally repeal the previous Ordinance approving the agreement and will approve the new agreement to be executed by the Mayor.
