## Executive Summary

### Purpose and Methodology

ETC Institute administered a survey to residents of the City of Branson during the fall of 2021. The purpose of the survey was to help the City of Branson ensure that the city's priorities continue to match the needs and desires of residents. As the Branson Board of Aldermen make decisions that affect a wide range of city services and programs this survey data will ensure their decisions are aligned with community priorities. Previous community surveys were conducted in 2008, 2012, 2015, 2016 and 2018.

The five-page survey, cover letter and postage-paid return envelope were mailed to a random sample of households in the City of Branson. The cover letter explained the purpose of the survey and encouraged residents to either return their survey by mail or complete the survey online. At the end of the online survey, residents were asked to enter their home address, this was done to ensure that only responses from residents who were part of the random sample were included in the final survey database.

Ten days after the surveys were mailed, ETC Institute sent emails to the households that received the survey to encourage participation. The emails contained a link to the on-line version of the survey to make it easy for residents to complete the survey. To prevent people who were not residents of Branson from participating, everyone who completed the survey on-line was required to enter their home address prior to submitting the survey. ETC Institute then matched the addresses that were entered on-line with the addresses that were originally selected for the random sample. If the address from a survey completed on-line did not match one of the addresses selected for the sample, the on-line survey was not counted.

The goal was to obtain completed surveys from at least 400 residents. This goal was met, with a total of 409 residents completing the survey. The overall results for the sample of 409 households have a precision of at least +/-4.8% at the 95% level of confidence.

The percentage of "don't know" responses has been excluded from many of the graphs shown in this report to facilitate valid comparisons of the results from Branson with the results from other communities in ETC Institute's *DirectionFinder*® database. Since the number of "don't know" responses often reflects the utilization and awareness of city services, the percentage of "don't know" responses has been provided in the tabular data section of this report. When the "don't know" responses have been excluded, the text of this report will indicate that the responses have been excluded with the phrase "*who had an opinion.*"

## Executive Summary

This report contains:

- An executive summary of the methodology for administering the survey and major findings,
- charts showing the overall results for most questions on the survey and trend data from the 2008 and 2018 community surveys,
- benchmarking data that show how the results for Branson compare to other communities,
- Importance-Satisfaction analysis; this analysis was done to determine priority actions for the City to address based upon the survey results,
- tables that show the results of the random sample for each question on the survey,
- a copy of the survey instrument.

## Major Findings

### Perceptions of the City

Sixty-eight percent (68%) of the residents surveyed, *who had an opinion*, indicated they were “very satisfied” or “satisfied” with the overall quality of services provided by the City. This represents a decrease of 1% from the 2018 survey. Seventy percent (70%) of those surveyed, *who had an opinion*, indicated they were “very satisfied” or “satisfied” with the overall quality of life in the City of Branson, which is an increase of 6% from 2018.

### Overall Satisfaction with City Services

The major categories of City services that had the highest levels of satisfaction, based upon the combined percentage of “very satisfied” and “satisfied” responses among residents *who had an opinion*, were: the overall quality of fire services (88%), overall quality of police services (80%), overall quality of parks and recreation facilities (75%), and the customer service received from City employees (69%).

The three major categories of City services that respondents indicated should receive the most emphasis over the next two years were: 1) maintenance of City streets and other infrastructure, 2) management of traffic flow on City streets, and 3) police service.

### Feelings of Safety

Sixty-six percent (66%) of respondents, *who had an opinion*, were either “very satisfied” or “satisfied” when rating their overall feeling of safety in City. Seventy-four percent (74%) of residents, *who had an opinion*, indicated were either “very satisfied” or “satisfied” when rating the overall feeling of safety in their neighborhood.

## Executive Summary

### Investment Priorities

**Recommended Priorities for the Next Two Years.** In order to help the City identify investment priorities for the next two years, ETC Institute conducted an Importance-Satisfaction (I-S) analysis. This analysis examined the importance residents placed on each City service and the level of satisfaction with each service. By identifying services of high importance and low satisfaction, the analysis identified which services will have the most impact on overall satisfaction with City services over the next two years. If the City wants to improve its overall satisfaction rating, the City should prioritize investments in services with the highest Importance Satisfaction (I-S) ratings. Details regarding the methodology for the analysis are provided in the Section 3 of this report.

**Overall Priorities for the City by Major Category.** This analysis reviewed the importance of and satisfaction with major categories of City services. This analysis was conducted to help set the overall priorities for the City. Based on the results of this analysis, the major services that are recommended as the top priorities for investment over the next two years in order to raise the City's overall satisfaction rating are listed below:

- Maintenance of City streets & other infrastructure (IS Rating=0.2422)
- Management of traffic flow on City streets (IS Rating=0.2180)
- Enforcement of City codes & ordinances (IS Rating=0.1148)

The table below shows the importance-satisfaction rating for all 12 major categories of City services that were rated.

## Overview

ETC Institute's *DirectionFinder*® program was originally developed in 1999 to help community leaders use statistically valid community survey data as a tool for making better decisions. Since November 1999, the survey has been administered in more than 300 cities and counties in 49 states. Most participating communities conduct the survey on an annual or biennial basis.

This report contains benchmarking data from two sources: (1) a national survey that was administered by ETC Institute during the summer of 2020 to a random sample of more than 5,000 residents in the continental United States and (2) survey results from 38 communities around the United States with populations of 30,000 or fewer residents where the *DirectionFinder*® survey was administered between 2019 and 2021. The communities included in this average are listed below:

- Basehor, KS

# **3** Importance-Satisfaction Analysis

# Importance-Satisfaction Analysis

## Overview

Today, community leaders have limited resources which need to be targeted to activities that are of the most benefit to their citizens. Two of the most important criteria for decision making are (1) to target resources toward services of the highest importance to citizens; and (2) to target resources toward those services where citizens are the least satisfied.

The Importance-Satisfaction (I-S) rating is a unique tool that allows public officials to better understand both of these highly important decision-making criteria for each of the services they are providing. The Importance-Satisfaction (I-S) rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low, and the perceived importance of the service is relatively high.

The rating is calculated by summing the percentage of responses for items selected as the first, second, and third most important services for the City to provide. The sum is then multiplied by 1 minus the percentage of respondents who indicated they were positively satisfied with the City's performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding "Don't Know" responses). "Don't Know" responses are excluded from the calculation to ensure the satisfaction ratings among service categories are comparable.

$$\text{I-S Rating} = \text{Importance} \times (1 - \text{Satisfaction})$$

## Example of the Calculation

Respondents were asked to identify the major City services that were most important to their household. Nearly half (46.4%) of the respondent households selected *"maintenance of City streets and other infrastructure"* as one of the most important services for the City to provide.

With regard to satisfaction, 47.8% of respondents surveyed rated *"maintenance of City streets and other infrastructure"* as a "4" or "5" on a 5-point scale (where "5" means "Very Satisfied") excluding "Don't Know" responses. The I-S rating was calculated by multiplying the sum of the most important percentages by one minus the sum of the satisfaction percentages. In this example, 46.4% was multiplied by 52.2% (1-0.478). This calculation yielded an I-S rating of 0.2422, which ranked first out of twelve categories of major City services analyzed.

# Importance-Satisfaction Analysis

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices of importance and 0% indicate they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either of the following two situations:

- If 100% of the respondents were positively satisfied with the delivery of the service
- If none (0%) of the respondents selected the service as one of the three most important areas.

## Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from 0.10 to 0.20 identify service areas that should receive increased emphasis. Ratings less than 0.10 should continue to receive the current level of emphasis.

- Definitely Increase Emphasis (I-S > 0.20)
- Increase Current Emphasis (I-S = 0.10 - 0.20)
- Maintain Current Emphasis (I-S < 0.10)

# Importance-Satisfaction Analysis

## Importance-Satisfaction Matrix Analysis

The Importance-Satisfaction rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low, and the perceived importance of the service is relatively high. ETC Institute developed an Importance-Satisfaction Matrix to display the perceived importance of major services that were assessed on the survey against the perceived quality of service delivery. The two axes on the matrix represent Satisfaction (vertical) and relative Importance (horizontal).

The I-S (Importance-Satisfaction) matrix should be interpreted as follows.

- **Continued Emphasis (above average importance and above average satisfaction).** This area shows where the City is meeting customer expectations. Items in this area have a significant impact on the customer's overall level of satisfaction. The City should maintain (or slightly increase) emphasis on items in this area.
- **Exceeding Expectations (below average importance and above average satisfaction).** This area shows where the City is performing significantly better than customers expect the City to perform. Items in this area do not significantly affect the overall level of satisfaction that residents have with City services. The City should maintain (or slightly decrease) emphasis on items in this area.
- **Opportunities for Improvement (above average importance and below average satisfaction).** This area shows where the City is not performing as well as residents expect the City to perform. This area has a significant impact on customer satisfaction, and the City should DEFINITELY increase emphasis on items in this area.
- **Less Important (below average importance and below average satisfaction).** This area shows where the City is not performing well relative to its performance in other areas; however, this area is generally considered to be less important to residents. This area does not significantly affect overall satisfaction with City services because the items are less important to residents. The agency should maintain current levels of emphasis on items in this area.

## PLANNING & DEVELOPMENT DEPARTMENT

PLANNING & ZONING | BUILDING PERMITS | SIGN PERMITS | CODE ENFORCEMENT

September 2021

Dear Branson Resident:

Your input on the enclosed survey is extremely important. Over the coming months, the Branson Board of Aldermen will be making decisions that affect a wide range of city services and programs that include public safety, parks and recreation, water and sewer utilities, community planning, and others. To ensure that the city's priorities continue to match the needs and desires of our residents, we need to know what you, the citizens of Branson, think.

We appreciate your time. We realize this survey takes some time to complete, but every question is important. The time you invest in this survey will influence many of the decisions made about the city's future. Your responses will also allow city leaders to identify and address the many opportunities and challenges facing Branson.

Please complete and return your survey during the next seven days. Your responses will remain confidential. An enclosed postage-paid envelope has been provided for your convenience, and it has been addressed to:

ETC Institute  
725 W. Frontier Circle  
Olathe, Kansas 66061

If you have questions, please call Joel Hornickel in the Planning and Development Department at 417-337-8546 or by email at [jhornickel@bransonmo.gov](mailto:jhornickel@bransonmo.gov). Again, thank you for taking the time to complete the survey to better our community.

Sincerely,

Larry Milton  
Mayor

# 2021 City of Branson Community Survey

Please take a few minutes to complete this survey. If you prefer, you can complete the survey online at [bransoncommunitysurvey.org](http://bransoncommunitysurvey.org). Your input is an important part of the City's on-going effort to identify ways to improve the quality of its services. If you have questions, please contact Joel Hornickel at 417-337-8546 or [jhornickel@bransonmo.gov](mailto:jhornickel@bransonmo.gov).
