- (2) Whether the bidder can perform the contract or provide the service promptly, or within the time specified, without delay or interference.

- (4) The quality performance of previous contracts or services.
- (5) The previous and existing compliance by the bidder with laws and ordinances relating to the contract or service.
- (6) The sufficiency of the financial resources and ability of the bidder to perform the contract or provide the service.

- (7) The quality, availability and adaptability of the supplies, or contractual services, to the particular use required.
- (8) The ability of the bidder to provide future maintenance and service for the use of the subject of the contract.
- (9) The number and scope of conditions attached to the bid.

(b) When bids received pursuant to this division are unreasonable or unacceptable as to terms and conditions, noncompetitive, or the low bid exceeds available funds and it is determined in writing by the city administrator that time or other circumstances will not permit the delay required to resolicit competitive bids, a contract may be negotiated pursuant to this division, provided that each responsible bidder who submitted such bid under the original solicitation is notified of the determination and is given a reasonable opportunity to modify their bid and submit a best and final bid to the city. In cases where the bids received are noncompetitive or the low bid exceeds available funds, the negotiated price shall be lower than the lowest rejected bid of any responsible bidder under the original solicitation.
