#### **FACTS:**

During the 2023 budget process the geographical information system group was moved to the Computer Services Department. Unfortunately, this move did not happen before the budget book was adopted. This budget amendment allows the budget established for GIS in public works to be moved to computer services and corrects a contractual services line item previously requested by the department.

#### **DETAILED ANALYSIS:**

The only increase in this budget is associated with the contract services line allowing for the acquisition of various GIS equipment and commodities.
