FACTS:

The City is renewing an agreement with Public Water Supply District No. 3 of Taney County (Water District) for water termination services. Under the agreement terms the Water District, at the request and certification of the City, will provide water termination to their water customer if that customer has failed to pay their City sewer bill and thirty days after the City has provided written notice to the customer of the Water District.

Prior to such agreements the City did not have the ability to discontinue water service for non-payment of sewer bills for City sewer customers connected to the Public Water Supply District No. 3 of Taney County water system. As a result, numerous sewer bills were being left unpaid.

As of the first of August 2022, there were 222 delinquent accounts on 1,200 active customers. With the shutoff agreement in place, we are seeing roughly a half dozen a month.

Staff recommends approval of the renewal of the agreement with Public Water Supply District No. 3 of Taney County (Water District) for water termination services.
