FACTS:

In May 2021, the City of Branson accepted funds from the Missouri Department of Economic Development Block Grant (CDBG) Program for the Elevate Branson Tiny Homes Community Development Block Grant Project.

In June 2021, an Environmental Review for the Proposed Elevate Branson Community Village was completed.

An amendment to the initial Environmental Review is being completed because the project includes the construction of two detention basins, which will be located on an adjacent parcel of land that was not initially examined in the completed Environmental Review.

This resolution gives authority to the Mayor to sign any and all associated documents related to the amendment to the environmental review record conducted for the Elevate Branson Community Village project.
